1. What is your research question?

2. What kind of data are you planning on using? How will you get access to these data?

3. What will your data analysis be like? Will you use machine learning? How? We are going to leverage a

4. Have you already identified other papers within this area that you can use in a literature review? If so, name a few and explain what they do in one sentence only.

5. How do you 'contribute' to the literature?
